

Syargei Kabak

Flutter Developer

I'm a junior mobile developer with 1 year experience in mobile development. Also I have a bit of experience in IOS development. During my education and worktime I have been working both in team and in solo projects.

In the near future I'm going to focus on Flutter development, implementing more complex and large-scale projects with an emphasis on performance and application quality.

Skills

- *Strong knowledge of Dart & Flutter (1+ years);*
- *Experience in asynchronous programming in Dart (Flutter Async, RxDart)*
- *Experience in mobile applications development*
- *Strong computer science fundamentals of software engineering*
- *Good understanding of the deployment process to the respective app stores (Google Play/App Store)*
- *Good understanding of UI/UX best practices and considerations*
- *Passion for writing clean, modular, well-commented, readable, and reusable code*
- *Experience with app state management (ScopedModel, Provider, BLoC, MobX, etc.)*
- *Good knowledge of Git, Bash, Ubuntu*

Projects

Flutter Developer at Sunmait Technologies

Feb 2022 - Sep 2022

I have been working with an application for employees where you can see your career days and career days your employees if you are manager. Also you can add , edit and delete tasks in career days, create and delete deadlines for this tasks. Moreover, there is a chat into this application so you can talk with your colleagues.
