

Aleksievich Irina

UX/UI Designer

Summary

Hello, my name is Irina, I'm UX/UI Designer with two years of experience. In my experience I have worked with such large-scale projects as a platform for the provision of consulting services at the international level; margin trading platform; match center for one of the largest news portals in Belarus; b2b online store of special goods based in Netherlands; corporate website for one of the leading law firms in the country, platform for sales and purchases of excursions around the world, mobile apps etc.

My area of interest includes design development for online platforms, online stores, corporate websites, online projects and mobile apps.

Check my portfolio on Behance:
